

NOTES

Families

There are many types of families

I Nuclear family

- Consists parents and children
- When a person from such a family get married, another nuclear family is formed.

II Extended Nuclear family

- It includes grandparents, aunts, uncles or cousins
- It is not completely isolated as nuclear family
- Eg A home with grandparents, ~~and~~ parents & children

III Modified Extended family

- Live separately but maintain ~~not~~ close ties with the family members
- They help each and visit each other often

IV. Joint Family

- All the family members of ~~at~~ more than 2 generations in one roof
- Parents, children and grandchildren, uncles, aunts and cousins live under same roof as a single family
